## Profile

Innovative and results-driven Software Developer with 7 years of experience creating creating mobile applications and robust backend solutions. Skilled in Flutter, Dart, Firebase, React, PHP, MySQL, Laravel, VB.NET, and C#. Proven track record of leading key projects and collaborating with cross-functional teams to enhance operational efficiency. Eager to bring this expertise to a new role as a Software Developer.

## Employment History

### Freelance Software Developer, Self-Employed, Aleppo

JUNE 2020 – PRESENT

- Developed and deployed **6 mobile applications** for clients across various industries, focusing on e-commerce, data storage, and travel, utilizing the **Flutter framework** for cross-platform functionality.
- Led the development of key projects, including:
  1. **Lienda Market App**: A fully functional e-commerce app with real-time inventory management.
  2. **Cloud Memory App**: A cloud-based solution for secure data storage and retrieval.
  3. **Travelwin App**: An interactive travel and booking app with geolocation and user review features.
- Implemented back-end development using **Laravel for API integration** and **MySQL** for database management, ensuring secure and efficient data handling.
- Collaborated closely with clients to understand project needs, delivering solutions that improved user experience and engagement by meeting technical and aesthetic requirements.
- Utilized an array of tools and languages, including **Firebase, React JS, VS Code, PHP, Dart, JavaScript, HTML, and CSS** for both mobile and web development.

### Software Developer, IbdAA (now Plus99), Aleppo

MARCH 2017 – 2020

- Collaborated with a cross-functional team to develop core components of **accounting and automation software** for exchange agencies, gold workshops, and shipping services, enhancing financial accuracy and operational efficiency.
- Designed and implemented **mobile applications** linked to the accounting software, enabling remote access and functionality, which improved workflow flexibility for clients in various industries.
- Utilized **VB.NET** and **C#** for backend logic and automation, ensuring robust software performance and data accuracy in financial transactions.
- Leveraged **Xamarin** to create cross-platform mobile solutions, integrating seamlessly with the existing software for a consistent user experience.
- Managed and optimized **MSSQL databases** to handle large volumes of financial data securely, enabling real-time data processing and reporting.

## Education

### Bsc, Telecommunication engineering, Aleppo university, Aleppo

SEPTEMBER 2011 – SEPTEMBER 2016
