Professional Summary

Senior Flutter & Full-Stack Engineer with 9 years in software development, including 6 years building cross-platform apps with Flutter. Shipped 12 production apps across e-commerce, fintech, travel and government, including a weather forecasting platform for Iraq's national meteorological authority. Currently leading development of a multi-vendor delivery platform (3 mobile apps and 2 web panels) for a German startup. Works end to end: requirements, architecture, Laravel/MySQL backends, Flutter apps, payment integrations and App Store / Google Play releases. Open to senior engineering and technical leadership roles in Saudi Arabia and the GCC.

Technical Skills

- **Mobile:** Flutter, Dart, GetX, Provider, Firebase (Auth, Firestore, Realtime DB, FCM, Analytics), Xamarin
 - **Backend:** Laravel (PHP), RESTful APIs, JWT auth, MySQL, MongoDB, MS SQL Server
 - **Web:** Flutter Web, React, JavaScript, HTML5, CSS3
 - **Payments & APIs:** Stripe, PayPal, Apple Pay, Google Pay, EdfaPay, Uber Direct, Cloudinary, AdMob, AppLovin MAX
 - **Delivery:** Git, Bitbucket Pipelines, GitHub Actions, App Store & Google Play releases, unit/widget/integration testing
 - **Desktop:** C#, VB.NET, .NET WinForms, DevExpress
-

Professional Experience

Lead Flutter & Full-Stack Developer — BBlitz (BananaBlitz), Germany | Remote

Feb 2025 – Present

- Lead development of a multi-vendor grocery delivery platform: customer, store and courier Flutter apps, plus web admin and vendor panels.
- Build and maintain the Laravel/PHP and MySQL backend that powers all five products.
- Integrated payments (Stripe, Apple Pay, Google Pay, PayPal) and the Uber Direct API for last-mile delivery.
- Own releases to Google Play and the App Store and CI deployment with Bitbucket Pipelines; 290+ merged pull requests.
- Improve app architecture and performance to reduce crashes and startup time; mentor junior developers on state management, testing and release workflows.

Freelance Flutter Developer — Tarmeez Tech, Saudi Arabia | Remote

Aug 2024 – Jan 2025

- Took over Cloud Memory, an Arabic-first personal cloud vault for contacts, messages, documents, notes and finances, and carried it to production on both stores (1,000+ installs).
- Integrated SAR payments through EdfaPay and Apple Pay, and fixed Google and phone sign-in.

- Added Arabic/English localisation, dark mode and push notifications.

Freelance Software Developer — Self-employed | Remote

Jun 2020 – Jul 2024

- Built and shipped Flutter apps for clients in e-commerce, travel and data storage, working directly with clients from requirements to store release.
- **Lienda Market** (Alhamada supermarket, Duisburg, Germany): sole developer of a grocery shopping and delivery app built from scratch, with an in-app admin panel, PayPal checkout and 3 languages including Arabic RTL. In production since Jan 2024.
- **Travelwin**: took over an all-in-one travel app for Turkey in Arabic, English and French, covering places, day trips, tour guides, medical tourism and real estate (5,000+ installs), monetised with AdMob and AppLovin MAX.
- Built Laravel/MySQL backends and REST APIs with Firebase integrations (auth, push notifications, analytics).

Software Developer — Ibdia (now Plus99) | Aleppo

Mar 2017 – 2020

- Developed accounting and automation software for exchange agencies, gold workshops and shipping companies.
- Built Xamarin mobile apps connected to the accounting systems for remote access.
- Wrote backend logic in C# and VB.NET on MS SQL Server databases handling financial data.

Selected Additional Projects

- **Weather Forecast** (Iraq Meteorological Organization): public weather app plus a web panel forecasters use to publish the daily forecast.
- **Exmoney** (fintech): mobile app for money transfer and payment services.
- **Soukuk** (Sokouk Al-Baraka): mobile app for gold trading and investment services.
- **Sheraa** (logistics): Windows desktop system for a domestic shipping company, covering shipments, couriers, pricing and cash (C#, WinForms, DevExpress).

Education

B.Sc. Telecommunication Engineering — Aleppo University

Sep 2011 – Sep 2016
